Dear Mr. Harris:

I enclose herewith a small picture of the parchment. I have the negative.

I would like to have a photographer make two prints on the same picture - one reducing to actual size and the other enlarging it. In order to do this, it will be necessary to have the measurement of the parchment.

I would appreciate very much if you would measure the parchment from point to point as marked with pencil and let me know the size.

Yours very truly,

*Lyndon Blair*

May 18th, 1951.

Mr. Gordon Blair,  
Traders Finance Corporation,  
Bank of Nova Scotia Bldg.,  
Saint John, N. B.

Dear Mr. Blair:

Yours of the 15th inst. received.

The length of the bit of parchment is exactly  
5/16ths of an inch. I am making slow progress with the history  
but I hope to finish it before the summer is over.

With kindest regards,

Yours truly,

Reginald V. Harris.
