

September 15th, 1936.

Mr. Gilbert D. Hedden,
39 Market Street,
Morristown,
NEW JERSEY, U.S.A.

My Dear Hedden:-

I was greatly disappointed to miss you on Friday last. I had a series of important meetings that afternoon and had to be out of the office. Mr. Love said he saw you on the street and that you were in a desperate hurry.

On my return home, I sent Mr. Blair a cheque for his account of \$16.25 and asked him to return his copy of the agreement. I then sent him the copy that I have and his own attaching to each a memorandum regarding the extension of time. He has now signed both copies and I now forward both herewith for your signature. Will you please sign both returning them to me.

May I say that I was much impressed with the progress that you have made this year at Oak Island. I think that there is still a mystery to be solved and I feel sure that you are on the way to solving it. I look forward with interest to what may happen next year. Blair is also convinced that you are approaching something of great importance. I think that during the winter we should get the story of the past history of the Island written up. Blair is willing to assist if you so desire. Some day there may be a sudden demand for the whole story and you can doubtless sell it at a big price if things turn out as I expect they will. *

My chances of visiting up your way during the winter remain as before. I will keep you advised.

Yours truly,

RVH
