Dear Reg:

Replying to your letter of the 19th would say I finally got in touch with Mr. Greene by phone, in New Orleans. He tells me he has a very big oil drilling job there which will take some months, and he will not be able to return to Oak Island during this summer. So, I have asked him to 'call off' our agreement, which he has promised to do.

I did see the article by Lockhart in the Toronto 'Star Weekly' of the 14th. I did not know where he got his information, but I did know that Greene was not on the job.

I understand Greene did not pay all his bills which he contracted last Fall, and am trying to find out where matters stand. I have, I think, definitely located one of something over \$600.00. How much more is kicking around, I do not know, but am wondering just where I fit in the picture.

My agreement was that he was to pay all expenses, and I did not enter into the picture with any of his 'doings' while in the Province. Whether or not he has used my name to get credit, I do not know.

I don't know just how soon I can get someone else moving, but hope to do so before very many more weeks.

Yours sincerely
